IMPORTANT NOTICE

****PRINTING ERROR****

PRODUCT NUMBER AND ILLUSTRATION CORRECTION

On Page 2 of our current Brochure, we illustrate product numbers

- * 1444 GWR Castle Class Mainline Tender Locomotive *
- and
- * 1446 GWR Castle Class Mainline Tender Locomotive *

CORRECTION

1. The locomotive illustrated as 1446 is in fact
1444. GWR CASTLE CLASS "WINCHESTER CASTLE"

2. The locomotive illustrated as 1444 is in fact
1446. BR CASTLE CLASS "CLUN CASTLE"

BUT....

in this case, although the locomotive BODY illustrated is correct,
the tender supplied is the BR tender NOT the Great Western Tender shown.

AAAARGH!

We much regret that both the Retail and Trade Order Forms, as well as the labels on the boxed products are adding to the confusion.

Please check your existing stocks of these locomotives, and let us know whether you require free replacement labels to correct matters as above.

NEW ORDERS FOR CASTLE LOCOMOTIVES

REMEMBER!! REMEMBER!!

As of May 1st, 1998, all orders shipped out from the Factory will bear the correct labels.....

1444. GWR Castle Class Mainline Tender Locomotive

1446. BR Castle Class Mainline Tender Locomotive

No matter what the Order Forms state, these are the items you will get when you order these Catalogue Numbers..... Thank you for your assistance.
